# Clicker Receiver Connections at the Podium

Using a Laptop with clickers:

1. Connect the podium USB cable (**3**) to your laptop.
2. Set the iclicker switch (**5**) to the *Laptop* position by pressing the long centre button on the switch until the light indicator next to the Laptop label is on.
3. Start the program *iclicker.exe* from the clicker folder on your laptop, or from the clicker folder on the USB memory stick plugged into your laptop.
4. Follow the usual steps to connect your laptop to the data projector by plugging the video cable (**4**)coming from the podium into your laptop and toggling the laptop/ computer black switch inside the podium to laptop.

Using the Podium computer with clickers:

1. Plug your USB memory stick (containing your course clicker folder) into the iclicker USB port (**1**) on the left of the podium desk.
2. Set the iclicker switch (**5**) to the *Podium* computer position by pressing the long centre button on the switch until the light indicator next to the Computer Podium label is on.
3. Start the program *iclicker.exe* from the clicker folder on the USB memory stick used in step 1.
4. Alternatively, place the iClicker MyCoursePC folder on the N: drive of the podium computer and start iclicker.exe from that folder. Access the N: drive from the Nexus portal mywaterloo.ca.
